

GRAVITY ENDURO RIDERS BRIEF

It's now time to hit the trails in the great atmosphere that is, enduro racing in Australia. The North Coast Enduro Series caters for all levels of riders from the A line elite riders to the first-time riders out for a great day with family and friends.

SPECTATORS

Spectators and competitors must report to registration in the event village and scan the QR codes to record their arrival time. Spectators are also asked to report to the registration desk before leaving to record their departure time. This is a COVID compliance requirement set out by State Health and will help to ensure racing can continue.

Under 13

Under 13 competitors will not ride the HSC stage.

Registration will open from 6:30 am to 12pm

To allow riders to spread out and minimise contact, registration will open at 6:30am and remain open until 12pm. You can pick up your race plate and start racing. Racing starts at 7am once you pick up your race plate. Riders will not be permitted to leave the event village until 7am. Please come to registration ready to race with your bike and all mandatory equipment on. (U17s, U15s, U13s that includes knee pads and elbow pads and gloves). Place your band with SIAC on your left wrist make sure it is tight and will not fall off, you are responsible for the SIAC if lost you will incur a \$120 replacement fee. You will have until 12pm to attempt all stages as many times as you like your fastest time on each stage will be kept. All stages must be attempted to complete the race. This will minimise lines at registration and at the beginning of stages. It is very important that everyone who participates strictly observe social distancing throughout the whole event. Always keep a bike length away from others.

START/FINISH

When you come to each start line where people may be lined up, please ensure that you follow the bunting and ensure a safe 1.5 distance. Do not overlap wheels. At each Start there will be a yellow start sign riders must be at a complete stop at this sign. From here you will be approx. 3 to 5 metres from the start box so you will have a running start. Give yourself at least 30 seconds between you and the rider before you even if you are confident they are faster than you, you can leave longer gaps if you feel you will catch the rider before you.

TIMING

As usual all timing points are automated. When you pick up your SIAC we will ensure it is turned on test it before giving it to you. Our best advice is to put it on making sure it is well fitted and forget about it. Give each other as much space as possible. Because the timing is setup for multi runs of a stage if you move too close to a start or finish and trigger your SIAC you can simply wait for 1 minute then Start no need to panic. However starts and finishes are well bunted and signed so while not racing, spectating keep well clear of them. There will also be a finish marshal, roving marshals and COVID marshals ensuring everything is running smoothly.

During the day you can check in at the registration desk and see your times online so far.

FIRST AID

First aid will be provided next to the registration Marque. If you come across an injured rider stop and help them and send the next rider that comes along to the finish to alert the marshal. They will stop racing on that stage and send for the medics. If you require medical assistance for any reason throughout the day, we urge you to see first aid in the event centre.

Race plates and stage start and finish signs have an emergency phone number on the back call that number for any assistance during the day.

FINISH

When you finish a stage move clear of the finish line before stopping. If meeting up with friends at the end of a stage run, ensure to maintain social distancing. We will ensure that there is plenty of space at the finish of every stage. If it looks like it's getting crowded, we will hold the start.

Finish lines are also marked with a yellow sign the finish sign is located on the finish line ride past it at race speed and do not stop until you are well clear of the finish as not to impede other finishing riders.

RESULTS

Results will be published LIVE throughout the weekend, so you can check your results. Results will be collated across categories and will be made official at the end of racing on Sunday. You will be asked at registration if you have read this briefing, hard copies will be available if you have not.

PRESENTATIONS

Podium positions will be available online shortly after racing finishes on Sunday. We post series points after the completion of the race. Presentations will take place shortly after all riders finish or at 12:10 pm whichever comes first.

- Sanitise your hands regularly. Hand sanitiser will be available.
- Always maintain social distancing.
- If you have a cold or flu-like symptoms - DO NOT COME. We reserve the right to deny entry if you have a fever or show flu-like symptoms.
